## PERSONAL PROJECTS

My Portfolio : [GitHub](#)

- I've crafted a dynamic Full Stack Web Developer portfolio using HTML, CSS, and JavaScript, hosted on Git and GitHub also deployed on Netlify.
- The responsive design, interactive features, and polished CSS styling highlight my technical skills

User Details Management with Authentication: [GitHub](#)

- I crafted a CRUD application featuring robust authentication with ReactJS, Node.js, Express.js, and MySQL. The project includes secure user authentication, sign-up, login, and logout functionalities. I managed collaborative development through Git, ensuring version control.
- The codebase is available on GitHub for review. This experience highlights my proficiency in creating secure, collaborative, and efficient applications using modern web technologies.

Employee Management system: [GitHub](#)

- Developed an Employee List Management System project using ReactJS and JSON API, incorporating essential features such as signup, login, and logout functionalities.
- Successfully hosted the project on GitHub, showcasing proficiency in frontend development, ReactJS, and API integration.

## CERTIFICATES

### MERN Stack

Udemy-certified in MERN Stack (MongoDB, Express.js, ReactJS, Node.js). Skilled in building full stack apps, adept at Git/GitHub version control.
